

The Village ARTwalk

The Village ARTwalk will feature numerous forms of art, sculpture and photography created by members of the local art community. These art pieces will be prominently displayed at designated locations throughout Tukwila Village.

ARTwalk will present art, sculpture and photography that are unique to the various cultures represented in the community. This could include the Foster High School art programs. ARTwalk guide brochures can be produced for each new exhibit, illustrate the locations of the various art and sculpture work along with a description of the piece and a bio about the artist that created them. The ARTwalk work will be rotated on a schedule determined by the community management group. Most of the work will be temporary, some pieces may become permanent installations.

Statement from the 4Culture Website:  
"Art provides opportunities for citizens to come together, to reflect, and to express their ideas and emotions. Art stimulates the imagination, awakens the sense and offers a meaningful connection to our environment."
